

SAME-DAY DPF AND DOC CLEANING.

SAME-DAY AFTERTREATMENT SERVICE.

Xpress Service is available nationwide at Rush Truck Centers. In addition to our Xpress Check and Xpress PM services, we also offer aftertreatment service -DPF and DOC cleaning.

Most engine OEMs recommend maintenance and cleaning of your DPF (diesel particulate filter) every 120,000 to 200,000 miles. Retrofit DPFs can have maintenance intervals as frequent as every 60,000 miles. Regular cleaning extends the life of your engine and helps it perform at peak power and efficiency. And Rush Truck Centers use state-of-the-art cleaning and diagnostic technology, performed by highly skilled, factory-trained professionals.
